

Algrid

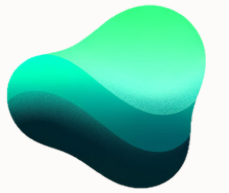

Turning a challenge into an opportunity: for vibrant oceans and a true circular economy.

Sargassum hits without warning and the bill keeps growing.

24M+

tons reach Caribbean & W. African shores each year

\$120M+

spent annually on reactive, after-the-fact cleanup

20+

Countries affected across 3 continents

10×

more bloom volume than 2011 — and still accelerating

Sargassum - Waste to Value

Reliable supply chain

All year round

Competitive prices

Forecasting the ocean like weather.

- Food and Beverages

MARKET & IMPACT

THE OCEAN
IMPACT
NAVIGATOR

5 Resilient coastal communities

E2 Ocean Data in Decision-Making

E1 Coastline Protected

7 - 90 days advance warning per forecast

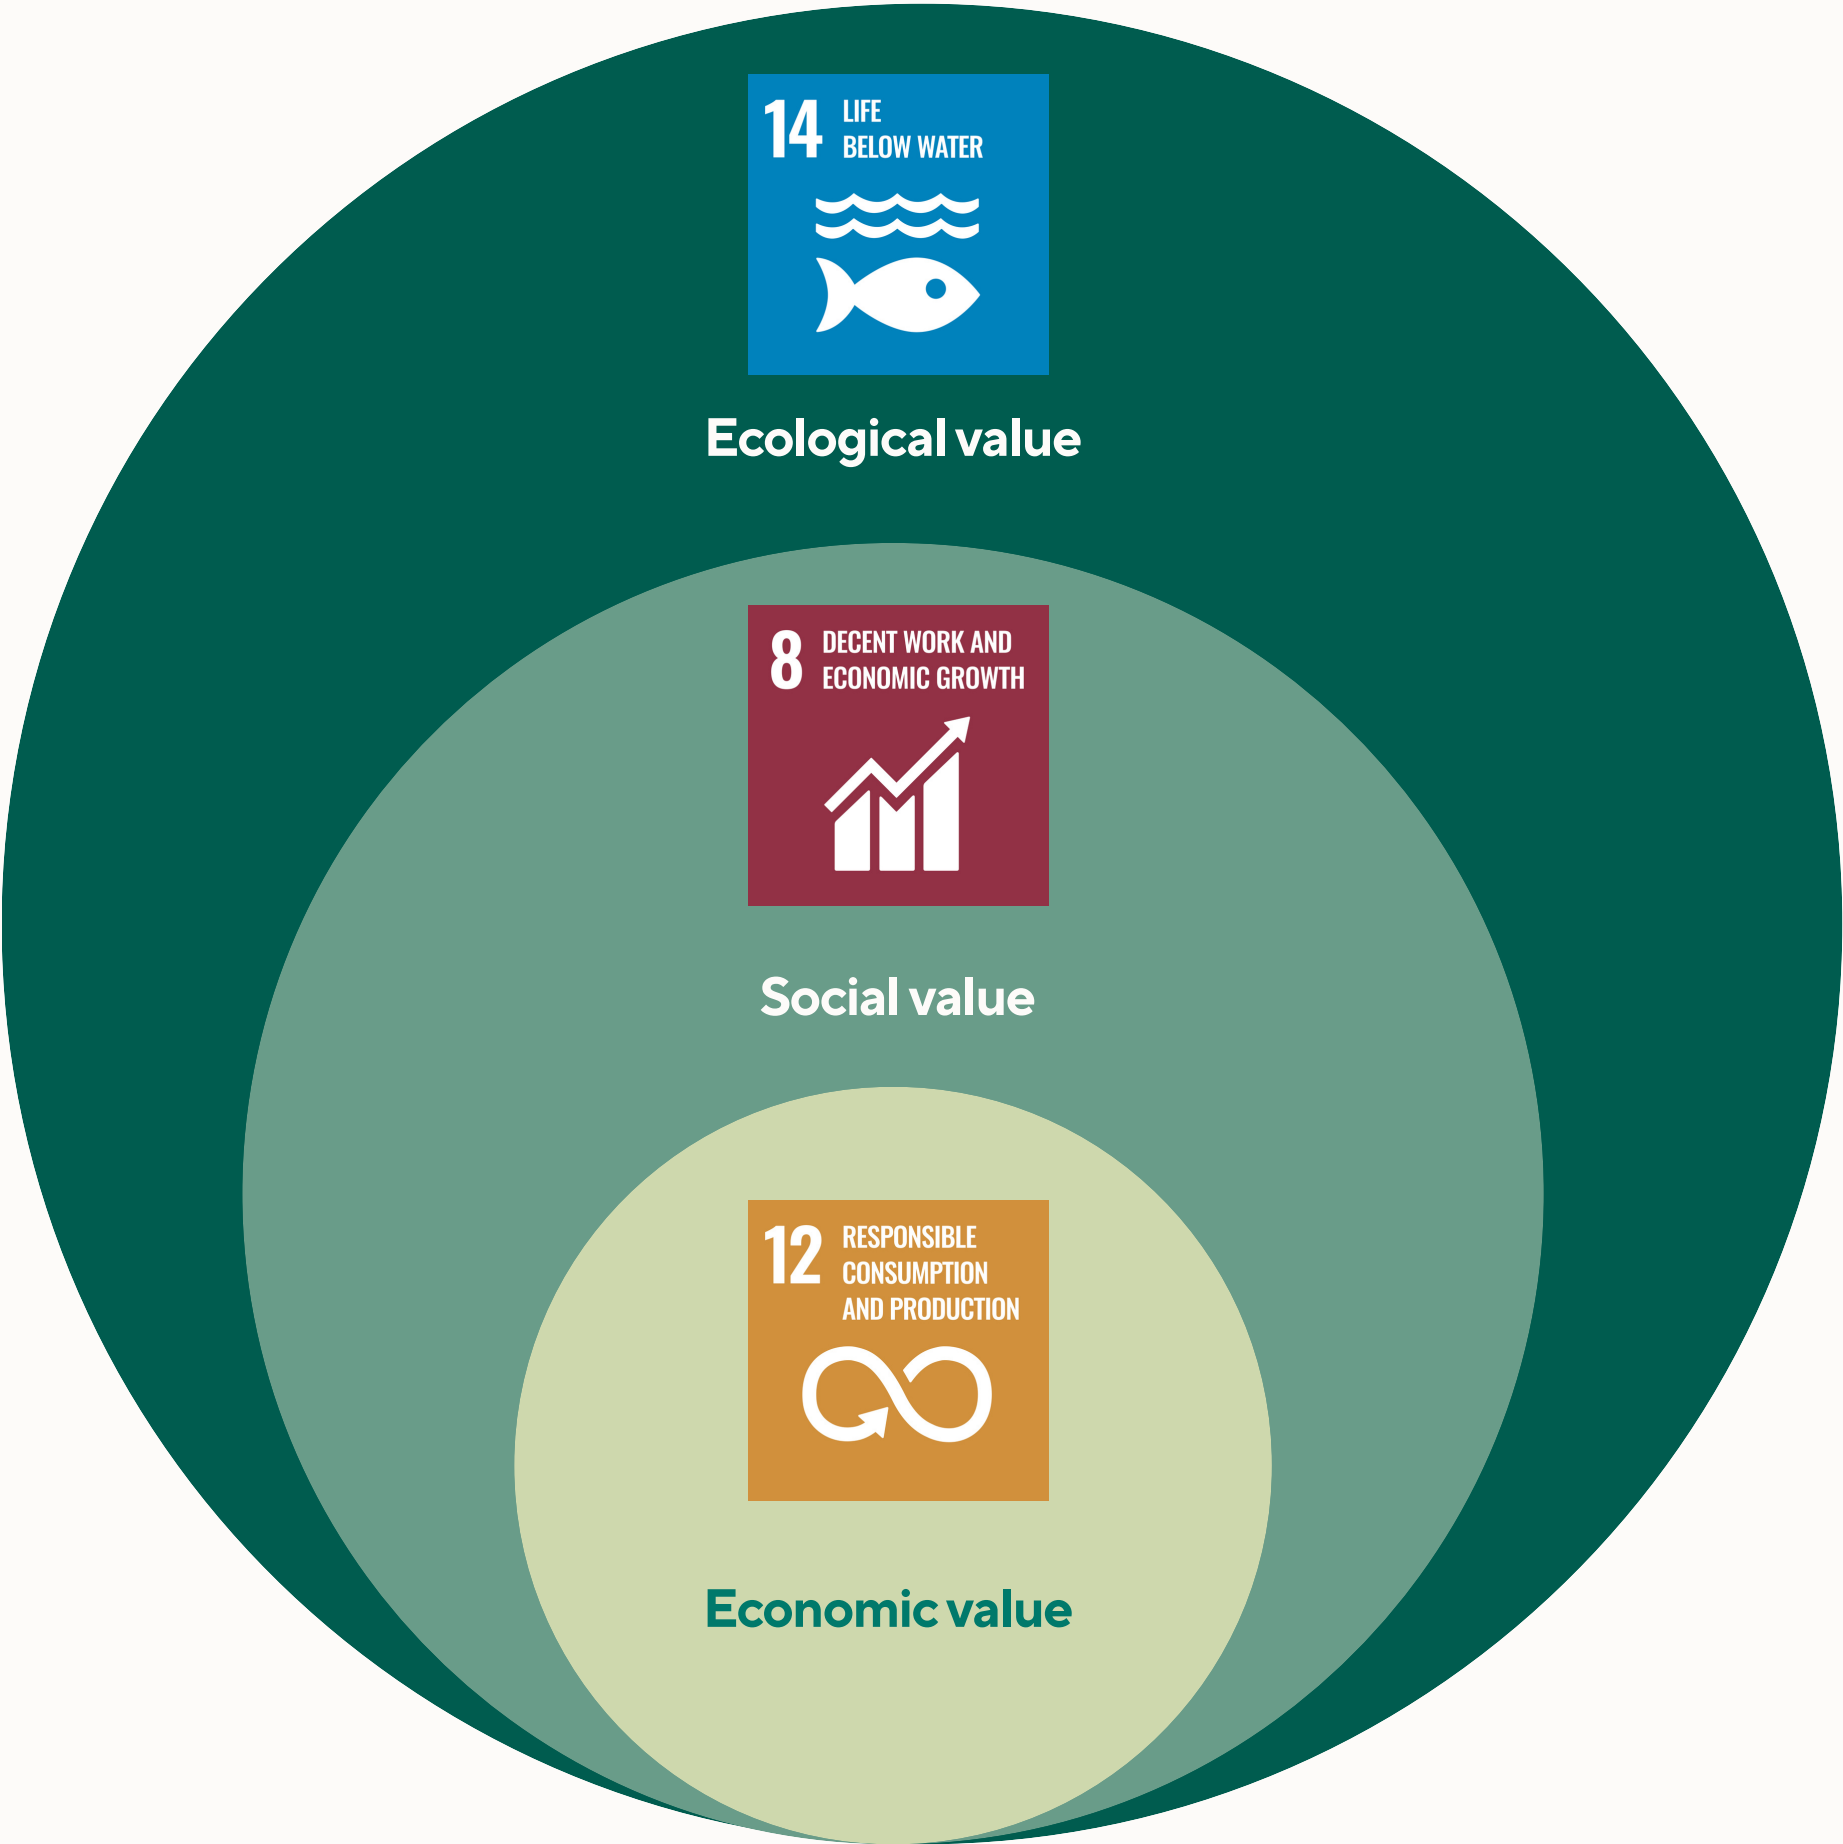

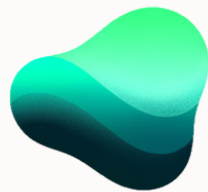

per km of coastline covered per client

Per the Ocean Impact Navigator framework, Algrid operates as an enabler: our impact is indirect but measurable through the decisions our clients make. We report qualitatively on E1 & E2, supported by operational data (clients, km monitored, API calls).

\$12B

Market by 2030

Indicators of the UN Sustainable Development Goals (SDGs)

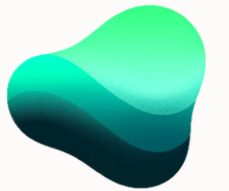

Secondary

	Targets	Indicators
	14.1	14.1.1
	14.2	14.2.1
	14.a	14.a.1
	12.2	12.2.2
	12.5	12.5.1
	12.b	12.b.1
	8.3	8.3.1
	8.9	8.9.1
	8.4	8.4.1
